AdityaPandey AdityaPandeyAbhay

## OBJECTIVE

MCA student with a strong foundation in software development, currently building expertise in C# and ASP.NET Core alongside experience in Python, Django, and Django REST Framework. Passionate about writing clean, efficient code and developing innovative solutions. Eager to apply skills in .NET and REST APIs to contribute to impactful projects.

## EDUCATION

**Master of Computer Applications (MCA)** *Expected Aug 2027*
*R.S.M.T College, Varanasi*

**Bachelor of Computer Applications (BCA)** *2022 - 2025*
*School of Management Sciences, Varanasi - CGPA: 7.76*

## SKILLS

**Languages:** C#, Python, Java, C, C++, JavaScript, HTML, CSS, SQL
**Frameworks / API:** ASP.NET Core, Entity Framework, Django, Django REST Framework (DRF), REST API
**Data Science:** Machine Learning, Data Preprocessing, Predictive Modeling
**Databases:** Oracle, MySQL
**Tools:** Git, GitHub, MS PowerPoint, MS Word, MS Excel, Postman
**Interpersonal:** Collaboration, Problem Solving, Time Management, Adaptability

## PROJECTS

**College & School Management System** *ASP.NET Core, EF Core, C#, SQL Server*
- Built a management system with APIs covering both college and school administration, including student records, course/class management, and an admin panel.
- Implemented user authentication and role-based access (student/admin) using ASP.NET Core Identity.
- Designed the data layer with Entity Framework Core, including CRUD operations across student, course, and admin modules for both college and school modules.

**Real-Time Chat Application** *Django, WebSockets, SQL*
- Developed a full-stack real-time messaging application enabling instant communication.
- Implemented Django Channels and WebSockets for seamless message broadcasting.

**Student Management System** *Django, DRF, REST API*
- Built a platform to manage academic data using DRF to design RESTful APIs for communication.
- Implemented CRUD operations and role-based access control to ensure data security.

**Blog App and Cricket Game** *Python, Django, Pygame*
- Blog App: CMS with Markdown support and dynamic commenting using Django.
- Cricket Game: Logic-based sports simulation with randomized scoring using Pygame.

## WORKSHOPS AND CERTIFICATIONS

**Loan Prediction Model with Machine Learning** *Oct 2024*
*Minicimex Tech - SMS Varanasi*
- Trained a machine learning model to predict loan eligibility based on user demographics and financial data during an 8-day intensive workshop.

**Web Development through Advanced Web Technologies** *May 2024*
*Minicimex Tech - SMS Varanasi*
- Completed an 8-day workshop on advanced front-end development and modern web architecture.
- Built and deployed responsive web components using current industry-standard frameworks.

## EXTRA-CURRICULAR ACTIVITIES

- Active participant in college technical fests and coding competitions, enhancing algorithmic logic.
- Contributed to community discussions on GitHub and explored open-source Python and .NET libraries.
